there are still some holes in services that are available in the city like services for mental health, help with food and programs for teens

Difficult to be all things to all people sometimes with limited \$\$\$. Possibility in future for Homebound delivery as our community has residents that are unable to make the trip here.

The building itself is getting small for all the wonderful items.

Privacy can be difficult sometimes because of our small size. Even a phone conversation in an office can be overheard, not always, but if the door is open or it's very quiet in the library. Also, the water testing seems odd.

Not enough space. Our library is small and limited on growth. There has been talk of creating different branches but the home library will still have limited growth.

1. Not enough room for more books. 2. Too much James Patterson taking up too much room that could be used for classics. 3. Mystery books labeled as Fiction ... makes it hard to discover new mystery writers.

Limited by size of building, i.e. lacks large meeting room.

State and county funding. Residents are very supportive, but it is unclear whether state and county leaders fully appreciate the services and support the library provides to a mountain community with residents of diverse financial resources. .

Too many popular authors and not enough of other great authors.

Individual working space. Patrons often voice the need for isolated areas they can take phone calls or work without disruption.

No evening programming, guest speakers: winds down during winter for good reason, weather always a factor in "our town." But perhaps we could attract more talent during summer and fall to give informative programs.

Finding enough volunteers.

1/29/2020 5:15 PM

Lack of space for a reading area.

Distance; widespread nature of the district; poor telecommunications in-district. Limits of library space and limited staff in handling all district obligations
