RFL - Library: Tell Us What You Think

Here at Red Feather Lakes Community Library we're continually evaluating services ... what works, what doesn't work, what you'd like to see, and, if you don't use the library how can we serve you better.

You can let us know by taking this 4-question 5-minute questionnaire. All responses are anonymous -- and go a long way in helping us meet your needs.

The library factored into our decision to buy our cabin in Red Feather Lakes. I love the children's area!

, Red Feather Lakes Village

Best library in Colorado, in our humble opinion.

Thanks for the people who voted for the RFL taxes, we are paying way too much for this library that probably get's very little use for the money. It's too much tax per household.

I respectfully disagree Terry. You are paying almost nothing for the library. Property taxes really are not that much in our area. The library is a very small part of that. Did you know that our property taxes don't even pay for the services we receive? The difference is paid by the urban areas of the county. I would have to look up a reference to prove that, but have read it several places in recent years.

The library is a phenomenal resource for our area. They scrape by on a shoe string budget, but provide excellent service for the dollar. Did you know that there are a variety of children who get dropped off there by the school bus? The reason for that is their parents are at work for another hour and the kids need a safe place to go. We have no other alternatives in the area.

The library is the dedicated information center in case of an emergency. Forest fire and and don't have cell service or electricity at home? Go to the library!

Did you know you can rent movies for free from the library? Did you know the library will loan out backpacks, compasses and maps? The library also provides a needed meeting place for a variety of people. The \$20 a year you pay in taxes is more than made up by what they provide!

The library gets a lot of use. It's not just the great services they provide, but also the free WiFi you can get there. Ever had a contractor do work on your house? No cell service in the area? They go to the library to check their messages and emails from customers. I know I have and I have seen many other contractors there doing the same.
