

Red Feather Lakes Community Library Standards of Acceptable Behavior Policy

Reviewed and revised by Red Feather Mountain Library District Board of Trustees May 26, 2021.

1-Use of Library property is intended for all users to be comfortable, safe, convenient, and advantageous. Therefore, user behavior is expected to foster these goals in providing a welcoming atmosphere in which both the user's and library's business is transacted comfortably and beneficially.

2-User behavior that interferes with, limits, or disrupts normal Library operation, or use of the facility or Library property in ways clearly not intended by policy, procedure or precedence is considered unacceptable user behavior and is subject to remedy by the Library.

3-Unacceptable behavior may range from boisterous actions, profanity, infringing on the rights or comfort of others, intoxication, drug use or other illegal behaviors, theft, solicitation, vandalism, viewing of pornography, or the intended interference with Library staff, volunteers and other users that is clearly uncomfortable, disruptive and/or unsafe. Other behaviors may apply.

4-Within the limitation of Colorado Statute, the Library is intended to be a weapons-free zone. The open carry of weapons within the Library is prohibited. Concealed weapons in the possession of individuals holding a valid concealed weapons permit within the library that directly or inadvertently become visible are subject to request by Library staff that the weapon either be concealed or secured outside of the Library. Concealment requests ignored by valid concealed weapons permit holding individuals carrying weapons or the repeated display of weaponry is subject to request by Library staff that the individual leave the premises or otherwise may result in Library staff contacting law enforcement to resolve the incident.

5-Individuals holding valid concealed weapons permits are subject to the other conditions and determination of acceptable behavior outlined within this policy.

6-Cell phones are to be silenced within the library.

7-A judgment of inappropriate behavior is made by librarian-in-charge who may take reasonable and appropriate action to resolve the issue. This may range from discussion through the limiting of library privileges, expulsion, or the summoning of outside assistance. Individuals who feel that they have been unfairly treated have the right of appeal to the Library Director or otherwise the Library Board of Trustees.

8-The safety and wellbeing of Library users, employees and volunteers is primary, and actions taken to correct inappropriate behavior will reflect these concerns.

Refer to: *Standards of Unacceptable Behavior Procedure.*

Refer to: *Red Feather Mountain Library District Statement of Principles*
